

HIDDENSTAY

FAIR-COMMISSION OTA + AI TRIP PLANNER
MAP-READY ITINERARIES FOR
INDEPENDENT TRAVELLERS

Book direct. Plan smarter.

One platform for independent hotels and travellers — 5% commission, AI map-ready trip planning.

PROBLEM 1 · HOSTS

High OTA commission erodes profit

Major booking sites charge **15–30%** per reservation. Independent hotels in SEA rely on OTAs heavily but keep less margin — especially budget properties.

PROBLEM 2 · TRAVELLERS

Trip planning is fragmented

Travellers juggle maps, blogs, and booking apps. Generic AI gives text lists — not **map coordinates** or links to bookable local stays.
